

Litter Box Tips for Training

Mountain
Farm
RABBITRY

Setting up your litter box

We like plastic storage boxes for litter boxes. Inexpensive and large enough for them to use. Use a paper based filler to absorb droppings. We like a combo of paper and pellet bedding.

Beginning Stages

When there is an accident clean up the mess and place droppings in litter box. Clean soiled area well to remove smell. **REPEAT REPEAT REPEAT**

Food

Bunnies poop as they eat, encourage litter box use by putting food/hay in or by the litter box.

Standard puppy pee pads can harm bunnies, do not let them eat them!
